ESD Container Cover

Specifications

6040C/ESD

Model	6040C
External Size	600 x 400 x 10 mm
Material	PP
Surface resistance	1×10^6 to $< 1 \times 10^{11}$ ohms
Compatible model	604012, 604017, 604022, 604032

Description

This cover measures 600 x 400 mm, with a downturned rim and recessed notches along the long sides. Made from anti-static PP with a reinforced rib, it fits over the standard Euro container rim. It is stackable and washable, with a surface resistance of 1×10^6 to less than 1×10^{11} ohms. It fits models 604012, 604017, 604022, and 604032.

This cover suits closing off any of its compatible ESD containers for ESD-sensitive storage or transport. Contents stay covered and protected from static buildup.

Features

- Standard 600x400mm euro footprint
- Reinforced rib
- Fits over container rim
- Stackable
- Washable
- Anti-static pp
